

DRAFT STANDARDS FOR SCREEN FENCE

Section of Screening Fence Requirements

Requirements:

Any modification to a shared existing metal fence will require a permission letter from your neighbor.

Screening mesh to be 1/4 inch square mesh and must cover the height of the fence. Mesh to be 23 Gauge metal.

5 ft fence - Mesh to be attached to the inside of the fence, must be tacked at the bottom, middle and top of each section of uprights

6 ft fence - Mesh to be attached to the inside of the fence, must be tacked evenly in 4 separate locations on each section of uprights

Mesh and bar stock to be painted black (or Chocolate Chunk if in Unit 46A)

If you do not have a block wall, the mesh can be buried into the ground.
